-  4 - FORM Detailed Budget Form 2021
-  5 - Project proposal scoring criteria
-  6 - Guidance for Sonar Proposals
-  7 - Guidance for Stock Restoration Proposals
-  8 - Communications proposal scoring criteria

Near-Term priorities remain consistent with previous Call

Restoration

- 1) Identify depleted stocks or limits to production (e.g. based on information about historic levels, traditional ecological knowledge, conservation concerns, or habitat “bottle-necks”) and identify candidates for stock restoration.
- 2) Assess the feasibility of and prepare a plan for restoring depleted stocks.
- 3) Restore depleted stocks (This refers only to candidate stocks for restoration for which a “restoration plan” has been developed).

Stewardship

- 4) Involve and educate users and non-users in communities to increase their desire to maintain and protect salmon stocks and habitat.

“In addition, priority consideration will be provided for 2021 project proposals that demonstrate local community involvement or local partnerships (in particular First Nations)”
